Dear Ron:

**Re: Surrey Lake Project
Contract M.S. 4801-002-11**

I would like to congratulate Matcon Civil Constructors Inc. on your outstanding performance during the construction of Surrey Lake. Your company played a central role in the success we had in the Serpentine-Nicomekl Flood Control Project this year.

With our most challenging drainage project of 2001 awarded to your company, your performance was critical to the successful outcome of the 2001 Drainage Program. The Surrey Lake project had the added challenge of a time constraint and very poor weather early in the season. Matcon overcame such challenges with hard work, dedication and innovation.

The strength of your service to the City is clearly your dedication and the competence of your project managers. In particular, Malcolm Buchanan has shown a commitment to get the job done in Bear Creek through tough conditions, that is rarely seen. Please thank him for us on a job well done.

The City looks forward to the opportunity to work with Matcon on future projects.

Yours truly,

A handwritten signature in black ink, appearing to read "Vincent Lalonde".

Vincent Lalonde, P.Eng.
Acting Manager, Utilities
